INTEREST

- Treking
- Travelling
- Self Learning

EXPERIENCE

GRAZITTI INTERACTIVE | SR. SOFTWARE ENGINEER

July 2019 - Present | Panchkula, Haryana

KASE SYNC | PRODUCT LEAD MERN STACK

- A major contribution in building the products & integration tools and playing the role of Lead, Architect and senior developer. Built online CRM(Salesforce) & Community sync tool which we call it as KaseSync
- Built integrations between Jira, Slack, Aha, many more and other community platforms.

ONLINE COMMUNITY PLATFORMS & DATA MIGRATIONS

- Holds the command of online community platforms at a very early stages. I helped my team acquiring a new cloud platform Vanilla Forums by successfully delivering a vast project with huge customisation, with the best practices and agile methodology to avoid future latency.
- Started Data Migrations and helped delivering over more than 7 data migration projects. Migrating content from one platform to another.

BASELINE IT DEVELOPMENT | SOFTWARE ENGINEER

May 2018 - July 2019 | Mohali, Punjab

- Started as a backend developer in PHP & wordpress, this organisation helped me grow stronger on my skills and as a person.

TECHNICAL PROJECTS

CASE CONNECTOR | PRODUCT, KaseSync

- Helped end user & moderators to stay connected with each other without leaving a single platform by connecting two different online cloud platforms using OAuth2.0 service.
- Serving the backend service on Node JS and React JS for smooth & easy user experience.
- Includes Redux, thunk

NINTEX TEMPLATE GALLERY | MERN STACK,

- June 2021 - June 2022 • Nintex comes to us with an old approached React JS component approach and a huge loading time of 3.5 - 5 Mins of the website.
- I have helped them providing a architectural level solution which helps them achieving a faster website load and a new redesign with a couple of bug fixes.
 - Later on switched MongoDB to MySQL hosted on Azure.

INFLUITIVE LMS | MERN STACK

- Helped Influitive building a unified place to let end users complete their challenges without even log-in to the actual platform.
- A responsive carousel system with adaptive width adjusting capability has helped user scroll through the challenges easily.

AHA INTEGRATION | INTEGRATION, VANILLA JS

- Integrate Aha platform to online cloud system which helped the customer to show their external ideas into the cloud community without log-in to the actual platform.
- Achieved a responsive design by adding CSS to the source Iframe content.

MARKETO EMAIL AUTOMATION | AUTOMATION, MARKETO

- Helped customer achieve email automation functionality using Marketo.
